VOLUME CVI

— Index —

1966

A

Acarine disease—92
Adam, Bro., conducts beekeeping tour—212
Adee offers prize for slogan—27
Adee, E. H., VP Am. Bkg. Fed.—426
Aegean Isle beekeeping—370, 410
Agricultural Hall of Fame—183
Alabama bee law—141
Alley, Henry, honored—387
Almond growers face shortage of bees—419
American foulbrood—130, 135
American Beekeeping Federation (1966)—23, 98, 101; (1967)—101, 461
American Honey Institute—21, 60, 98, 103, 178, 217, 262, 288, 340, 381, 420, 456
Amibiasis, a bee disease—292
Antibiotics for prevention of disease—130, 255
Antique beekeeping equipment—183
Aphid control—128
Apiacta, Apimondia bee journal—448
Apiaries, distance apart—460
Apiary inspectors of America—103
Apicultural research funds—99, 129, 380
Argentina's message—94
Argentine miracle—166
Arizona ideal for fall divides—86
Arkansas beekeepers honored—464
Autumn collapse—126
Australian Honey Board—142, 223, 261, 291, 427
Australians tour markets for honey—223, 261

B

Bacillus thuringiensis—48
Ball, Thomas L., retires—388
Banat bees—19
Beautification of roadsides—47
Bee—
  blower—246
  literature—15
  poisoning—128, 174, 206, 247, 294
  research funds—99, 128, 380
  strains, crossing—61
  tree bothersome—429
Bee Industries Ass'n—103
Bee law, Alabama—141
Beekeeper fined in U.K.—428
Beekeeper of the year—425
Beekeeping—
  ancient—452
  changes—406
  course in Michigan—267
  course in Utah—107
  general information—286
  hobby for preachers—295, 326
  in Aegean Islands—370
  in Italy vs. America—86
  in the future—16, 140
  installing packages—205
  journey to Greece—170
  journey to Jugoslavia—212
  old equipment—183
  on shares—222
  organizations, national—17
  random thoughts—344
  Stoller system—341
  society formed, new—426
Bees—
  Belgium—19
  dislike intense light—127
  for the homestead—286
  found dead in front of hive—339
  in smog—374
  need water—261
  robbing behavior—446, 448
  shipped by airplane—95
  size of packages—52
  vision of—260
  wild, in pollination—9
Beeswax, methods of extracting—252
Beeswax samples preserved—129
Beltsville Research Apiarium—336
Bender, R. E., wins trophy—427
Benton, Dr. Allen W., collects venom—329
Benzaldehyde, new mixture for—301
Blood of the bee—376
Blower to remove bees from supers—246
Blueberry pollination—250, 366
Books—
  Design for Life, by Trump and Fagle—175
  History of National Beekeeping Organizations, by Dr. V. G. Milum—17
  The Pesticide Jungle, by Mrs. Laura Tallian, Sunnyside, Calif.—414
Breeding stock center planned—57
Brood nest, 9 or 10 frame?—222
Bottom board—449

C

Candies made with honey—22, 62, 416
Cappings reducer—334
Check-off plan—101, 420, 457
Chili receives grant for beekeeping—289
Christmas cards for beekeepers—421
Clover seed, pollination—298
Clover seed weevil—129
Colonies, dividing in fall—86
Combs, extracting wax from—252
Congress members, meeting with—418
Congress, XXI World—20, 176, 368, 409
Crops and Markets—4, 44, 84, 124, 165, 205, 245, 285, 325, 364, 405, 445
Cucumbers, pollinating—260

D

Danish centennial jubilee—464
Disappearing bees—126
Disease reports—
  Arizona—93
  Florida—135, 335
  Illinois—93
  Michigan—93
Disease resistance—451
Diseases—
  American foulbrood—130
  Amigiasis—292
  Autumn collapse—126
  European foulbrood—130
  Nosema—131, 137
Disney film on bees—462
Divides made in Arizona—86
Divides, one method—339
Drugs—
  for bee diseases—89, 130
  in larval food—88
  mixing and applying—379
Dyce, Dr. E. J., retires—58
Dyce process of creamed honey—330

E

Editorial—
  Jan.—100th annual convention of National Beekeepers' Ass'n—19
  Feb.—Where help is needed (Beck)—47
  Mar.—Cut in apiculture research funds?—99
  Apr.—Why support bee research?—137
  April honey promotion—142
  May—Our Washington trip (Gibson)—179
  Honey promotion in school lunch program—179
  June—Our price support program (Gibson)—218; A price squeeze (Adee)—218; Have your costs increased? (Rodenberg)—219
  July—86% of annual goal pledged for AHI—264
  Oct.—75% of parity—373
  Dec.—A beekeeper looks at Honey Promotion—457
Equipment for beekeeping—141
Ethylene oxide used for AFB—135
European foulbrood—130
Extracting honey—334
Extracting wax—252
Extractor, Australian—287
Extractor, Fox-Harrison—6, 168

F

Factors affecting honey crop—254
Feeding sugar sirup—384, 423
Fogs used to control insects—248
Food exhibit in London—177
Four-H members interested in bees—147
Fox-Harrison system—6, 168
Frame spacers—384
Frames, 9 or 10 in brood nest—222, 311
Frames, sterilizing—337
Future for beekeeping—16, 140

G

German honey sources—11
Glass plates used in detecting disease—131
Glass surplus boxes—183
Gould, A. C., retires—147
Grants—
  USDA to Chili—289
  USDA to Ill. Univ.—307
  USDA to Utah Univ.—261
Grasshopper control—174
Greek beeyards—170
Greenhouse pollination—260

H

Harbison manuscript collection—256
Harvesting the honey crop—87
Heat exchanger, for honey—332, 334
Heating room for honey—56
Hemolymph of bees—376
Hive, new 8-fr. Jumbo—55
Hive, observation—460
Hive size influences yield—55
Honey—
  advertising—456
  ancient uses—452
  and tooth decay—61
  at London exhibit—177
  Australians plan to improve price—223
  breakfast week—142
  bulk dealer—249
  creamed process by Dyce—58
  display at corn festival—29
  drop in price explained—94
  from US big hit in Germany—417
  German sources—11
  goes to romper room—136
  grading regulation—12
  harvesting crop—87
  imports—245
  liquefying—220, 423
  liquefying in supers—222
  2.1 million lbs. for schools—60
  parity price—175, 301, 369, 418
  preparation for market—12, 56, 96, 132, 209, 296, 330
  production in Canada—245
  production reports—93
  promotion by Western Paint Co.—257
  promotion opportunities—142, 457
  repacking—296
  research—214, 247
  situation in Argentina—94, 166
  sourwood—338
  strainer, O.A.C.—132
  straining—96, 333
  substituting for sugar—263, 303
  transported in railroad tank cars—172
  world market—5, 10, 45, 85, 125, 164, 204, 244, 284, 324, 865, 404, 446
  yields and size of package—52
  yields tested with four hives—55
Honey Industry Council—103
Honey-paint promotion—257
Honey plants and their use—91
Honey plants for waste places—258
Honey plants—
  Anise hyssop—29
  Aralia spinosa—181
  Aster—291
  Bee Bee tree—13
  Catnip—290
  Chivirico—290
  Cleomes—291
  Dombeya—221
  Golden honey plant—290
  Honeysuckle—415
  Horsemint—291
  Ladino clover—289
  Maleleuca—51
  Mesquite—19
  Motherwort—290
  Purple loosestrife—134, 291
  Pussy willow—181
  Rocky Mt. bee plant—291
  Sourwood—338
  Spanish needle—291
  Squill—372
  Thyme—371
  Virginia waterleaf—290
  Vitex—455

Honey queens—
Argentina—Amanda De Mateo—166
American—(1966)—Beverly Joan Gibbs—101, 143, 267, Aug. and Sept. covers, 288, 340, 382, 383, 427
(1965)—Grace Strickland—143
Arkansas—Linda Santa Cruz—303, 347
Florida—Elizabeth J. Padron—143
Michigan—(1966)—Su Lyn Van Allen—346
(1965)—Darlene Rink—346
Minn.—(1965)—Anita Berg marries—463
Minnesota—Linda Johnson—346
Mississippi—Sandra Combs—424
Nebraska—(1966)—Barbara Lavaley—462
Tennessee—Jane Whitaker—143
Honeycomb candies—416
Honeydew—211
Hornets exterminating—61
Horse show at Kansas City—464
Hybrid bees—311
I
Imports of honey—245
Increasing number colonies—86
Inhibine and glucose oxidase in honey—214
Insecticides—128, 174, 206, 248, 337
Inspectors' reports—93, 135, 335, 420
International Congress XXI—20, 176, 368, 409, 450, 451
International exhibition of groceries—287, 417
Investment in bees and equipment—97
Iselin, W. A., bee inspector, Kansas—265
Italian girl's view of Am. beekeeping—92
J
Jansha's birthplace—213
Jarvis, Dr. D. C. (author) dies—388
K
Killion bottom board—449
Kits for stings—175
Krawaite, pollen supplement—210
Krayeast—328
L
Laboratory at Tucson, Ariz.—259
Laying workers a problem—250
Legume seed crops poisoned—128
Levin Dr. M.D., chief of lab. Tucson—259
Liquefying honey—220, 222, 423
Literature, early bee—15
Lobbying was successful—380
M
Malathion for grasshopper control—174
Market preparation of honey—12, 56, 96, 132, 209, 296, 330
Marketing of bulk honey—249
Mason-Dixon Line—343
McCutcheon, Doug., starts com. beekeeping—225
Mead—384
Meetings—
Am. Bee Breeders—385
Am. Bkg. Fed. (1966)—23, 98, 101; (1967)—101, 461
Am. Honey Institute—103
Am. Honey Show—454
Apiary inspectors of Am.—25, 103
Bee Industries Ass'n—103
Brussels Show—65
Calif. bee days—65, 347
Danish centennial jubilee—464
Eastern Apicultural Society—27, 187, 304, 386
Hybrid bee breeders—345
Ill. State Ass'n, diamond jubilee—27
Industry Council—103
International Apicultural Congress XXI—20, 176, 368, 409, 450
Pollination conference—8
Short Course, Pa.—227, 269
Southern States Fed.—347, 385
Meloy, Robert W., research chemist—136
Mendel, Johann Gregor, 1822-1884—18
Mesquite a threat—211
Messages from honey queen and chaperon—105
Morse, Prof. research on bee nests—127
Mothballs get rid of skunks—287
O
Observation hive—460
Obituaries—
Allen, Lloyd E.—271
Battan, James P.—69
Barnes, Ransler—388
Brown, Henry—187
Byrd, Hon. H. F.—465
